TO: Chief of Support, NE

Bill:

I'd say that actual expenses up to \$30.00 per day is the answer. I can do this by delegation from DD/P.

You may want to handle this on an after the fact basis, i.e., authorize per diem but have the man keep a record of his allowable subsistence expenses. Then if his expenses are out of line with the per diem, we can approve actual expenses up to \$30.00 per day on the voucher. It seems to me that the requirement for this treatment will be the exception rather than the rule.
